FOUNDRY TRADE JOURNAL INDEX
VOLUME 157
JULY—DECEMBER 1984

A

Adhesive provides the Answer to Attaching Ancilliary Components to Casting, 384
Aluminium Industry, UK Secondary, Backs Foundry Sector, 472
Arc-welding Ferritic Ductile Iron, 81
Ashworth incorporate Gravity-diecasting in Venetian-design Furniture, 170
Austempered Irons set for Growth, 156
Avon Diecasting hosts American Visit, 140

B

BCIRA, Japanese Foundrymen visit, 211
Bestobell Valve—a Committed Producer and User of Castings, 64
Bronze Foundries receive Technology Boost, 55

C

Charles W.Taylor look to the Heavy-weight Casting Market, 215
Craft Training, New Arrangements for, in the Engineering Industry, 220
Coremaking Technology, GIFA Show demonstrated advances in, 407
Cupola-furnace Charge System to use Steep-angle Conveyors, 242

D

Diecast Component brings Precision to Record Turntable, 241
Diecasting Company reduces Energy Consumption by One Third, 24
Diecasting Society: Diecasting Society discusses Consumables, 133; Money to Burn?, 313; Diecasting Society Seminar, Money to Burn—a Report on a, 497; Northern Branch complete innovative Programme, 138; Midlands Branch holds Successful Golf Tournament, 139
Die Lubrication for Light-alloys—a Basic Guide, 493
Ductile Iron, Arc-welding Ferritic, 81
Dust and Fume Control in Foundries—the Practical Viewpoint, 265
Dust and Particulate Fume, Airborne, Measurement of, 275

E

Electric Melting, Diecasting Foundry changes to, 295

F

Farnborough '84—an Insight into the Progress of High-technology Founding, 282
Finecast (Maidenhead), Limited, Dedication and Expertise bring Success to, 438
Finishing Equipment at GIFA, 159
Fisher Foundries move into Iron Alloys, 434
Furnace Modification solves Lengthy Maintenance Problem, 384
Furnaces '84—a Preview, 113
Furnaces '84—a successful Prelude to Metals Engineering '86, 355
Furnaces, Foundry, at GIFA, 223
Furnaces, High-efficiency Foundry, 7

G

GIFA Show demonstrated Advances in Coremaking Technology, 407
GIFA Show demonstrated High-technology, 59
Gravity-diecasting, Ashworth incorporate, in Venetian-design Furniture, 170
Greensand Moulding Machines at GIFA, 315

H

Hill's Castings advance from an Oil Drum to Electric Melting, 83
Hills Precision, Fifty years in Zinc at, 121

I

Induction Melting in the Foundry—the Italian Experience, 30
Industrial Precision Castings—A Management Buyout Success Story, 193
Institute of British Foundrymen: Australian Branch discuss Computer-designed Runner System, 246; Conference discusses a Non-traditional Future, 172; Golfing Society hold another Successful Meeting, 382; Good Support for Cambridge Conference, 140; Lancashire Branch encourage Young Foundrymen, 4; London Branch elects President, 311; Slough, Section Members Listen to Presentation on Foundry Machine Developments, 381; Yorkshire branch holds First Meeting of the Session, 382
Investment Casting, Sixth World Conference on, for Washington, 197

K

Keighley Foundry wins Liverpool Dock Restoration Order, 155

L

Lake & Elliott cast Nodes for Hawaiian Telescope, 293
Lesney thriving under Management Buyout, 112
Light-alloy Prospects brighten—the Editor talks to David Waterman, 463
Light-alloys, Die Lubrication for—a Basic Guide, 493
Light-metal Foundry Industry, The UK—a Status Report, 468
Liverpool Dock Restoration Order, Keighley Foundry Wins, 155
LMFA note Steady Progress, 3
Lydmet install New Camshaft Line, 70

M

Machining Rate, Improving the, Ni-Hard Pump Components, 41
Maintenance, Foundry Plant—Crisis or Prevention?, 324
Manipulators ease the Founder's Load, 178
Mars Global celebrate 25 Years of Service to the UK Foundry Industry, 182
Maverex Fordath Link-up strengthens Foundry Equipment Group, 414
Maximum Demand Monitor, Wellworthy Foundry Cuts Costs with, 241
Mechanisation and the Smaller Foundry, 103
Meehanite Conference, a Report on the 50th, "The Foundry Fights Back", 232, 423
Melting, Induction in the Foundry—the Italian Experience, 30
Metaserv's 25th Anniversary, 245

N

NDT System, Semi-automatic, guarantees Integrity of Castings, 434
Ni-Hard, improving the Machining rate of, Pump Components, 41
Non-ferrous Ingot Manufacturers install Electric Furnace, 294

P

Patternmaking Systems at GIFA, 367
Patterns made to Measure, 56
Pearson Panke, Limited celebrate 30th Anniversary, 136
Perry's, The Changing Image at—High-technology Linked to Traditional Skills, 359
Pressure-diecasting Machines, Developments in, 125
Pumps and Valves, The Market for, 61

R

Recirculation of Filtered Air, 268
Reclamation Equipment, Sand Mixing and, at GIFA, 372

S

Safety Spot, 385
Sand Mixing and Reclamation Equipment at GIFA, 372
Sarginson Bros. adopt Advanced Metrology, 135
Shotblast Problem, Chromium-carbide Plates solve, 242
Steel Grit cuts Costs for Stelrad, 40
Sub-contract Services, Alpabetical List of Companies providing, for the Foundry Industry, 335
Sub-contract Services, Classified List of Companies providing, for the Foundry Industry, 329

V

Valves, and Pumps, The Market for, 61

W

Water Jetting speeds up Cleaning of Investment Castings, 84
Wheeldon Process, Kenrick drop Exclusive use of, 293
Wilkinson's, John, Monument Restoration completed, 379
Wilkinson Obelisk, Rescue goes ahead for, 37

Z

Zinc Diecasting solves Instrument Design Problem, 212

Index of Comments

Artist Moulder, The, 1
Diverse Industry, A, 457
Furnaces '84 shows the Way, 97
Heavy Engineering in the Doldrums?, 353
Long Live Sand!, 309
New Publishing Venture, A, 209
Problems Shared, 153
Through a Glass Clearly, 261
Touching a Nerve, 401
Zero-defect Casting, The, 53
